NEW SECTION. **Section 1. Components of basic system of free quality public elementary and**

secondary schools. (1) The components of the basic system of free quality public elementary and secondary schools, as defined in 20-9-309, include the costs related to the nine components described in subsections (2) through (10) of this section.

(2) (a) The per-student component includes:

(i) funding for supplies and materials of an expendable nature that are consumed or worn out or that have deteriorated in use or items that lose their identity through fabrication or incorporation into different or more complex units or substances, commonly known as consumables; and

(ii) funding for school-sponsored activities for students that are not part of the regular instructional programs and for which students do not receive educational credit and one-half of the general fund expenses for school-sponsored athletics that allow student participation in sports programs, normally involving competition between schools.

(b) The per-student component must be adjusted pursuant to [section 4] to provide additional funding to each district serving at-risk students.

(3) The classroom component includes funding for providing the services necessary for classrooms in a school district, including funding for salaries, benefits, and professional development for instructional staff and expenditures other than salaries and benefits that are associated with educational media services and improvement of instructional services.

(4) (a) The accredited program component includes funding for the cost of providing:

(i) services necessary for general administration, building administration, and support services for students;

(ii) salaries and benefits associated with support services and business services; and

(iii) general fund food services costs.

(b) The accredited program component provides funding for a school district based on the ANB of the schools within the district, the ANB of the district as a whole, the accreditation standard requirements for administrative staff and support staff, and additional staffing determined to be necessary for district and school-level business services.

(5) The building operation and maintenance component includes funding for the operation and maintenance of fixed assets, such as land, buildings, building improvements, site improvements, service systems, and equipment.

(6) The special education component includes funding for services to students who meet the definition

1 of a child with a disability under 20-7-401.

2 (7) (a) The transportation component includes funding for school district expenditures for activities
3 associated with transporting students to and from school as provided by state and federal law, including trips
4 between home and school.

5 (b) The transportation component does not include student transportation related to extracurricular
6 activities or athletics.

7 (8) The capital projects component includes funding for the acquisition of fixed assets, such as land,
8 buildings, building improvements, site improvements, service systems, and equipment.

9 (9) (a) The debt service component includes funding to retire long-term debt of the school district,
10 including payments of both principal and interest on bonds. The debt service component is allocated on the basis
11 of a debt service per-ANB amount.

12 (b) As used in subsection (9)(a), "long-term debt" means obligations in excess of 1 year.

13 (10) The Indian education for all component includes funding to each district of a base amount or a
14 per-student amount, whichever is greater, to implement the provisions of Article X, section 1(2), of the Montana
15 constitution and Title 20, chapter 1, part 5.

16 (11) The sum of the calculated amounts of all nine components constitutes the funding for a basic system
17 of free quality public elementary and secondary schools as defined in 20-9-309. Funding is allocated based upon
18 a calculated amount. A district is not required to allocate or expend funds in accordance with a calculation unless
19 specifically provided by law.

20

25 to the accreditation standards and is adjusted as provided in subsection (4). The student-teacher ratio for a
26 classroom is based upon the size category for an elementary school district or a high school district as described
27 in subsection (2).

28 (2) (a) The size of an elementary school district is the larger of the current year ANB or the 3-year
29 average ANB calculated as provided in 20-9-311. The size categories are as follows:

30 (i) "E6" means an elementary school district or a K-12 elementary program with less than 41 ANB;

(ii) "E5" means an elementary school district or a K-12 elementary program with at least 41 ANB but not more than 150 ANB;

(iii) "E4" means an elementary school district or a K-12 elementary program with at least 151 ANB but not more than 400 ANB;

7 **NEW SECTION. Section 3. Method of calculating accredited program component -- definitions.**

8 (1) The accredited program component is calculated using three tiers, which include the central office tier, the
9 school office tier, and the per-student tier.

10 (2) The central office tier provides funding for district- level costs of an independent elementary district,
11 a K-12 district, a high school district and elementary district operating under a combined board, or an independent
12 high school district that does not have a unified elementary district. The central office tier is calculated as follows:

13 (a) for each school district, determine the greater of the current year ANB or the 3-year average ANB
14 as provided in 20-9-311;

15 (b) add the ANB of districts within a school system to determine the total school system ANB;

16 (c) use the school system ANB to determine the number of FTE, calculated pursuant to subsection (3),
17 to be funded for the central office, which includes the district superintendent, assistant superintendents,
18 district-level program and activities coordinators, curriculum coordinators, department chairs, business managers
19 or clerks, business clerical staff, district secretarial staff, nurses, human resources staff, superintendent support
20 staff, information technology staff, central services staff, and athletic directors; and

21 (d) for each FTE allocated for funding pursuant to subsection (2)(c), multiply the number of FTE by the
22 average salary and benefits provided for that position, as provided in subsection (6), to determine the total central
23 office tier dollar amount for the school system.

24 (3) (a) For K-12 districts, high school districts and elementary districts operating under combined boards,
25 or independent high school districts, funding for the central office tier must be calculated based upon the following
26 certified positions, with those positions prorated for smaller and larger school systems:

27 (i) one quarter-time superintendent at a minimum and one full-time superintendent in school systems
28 with more than 500 ANB;

29 (ii) one full-time assistant superintendent in school systems with more than 5,000 ANB;

30 (iii) one full-time program and activities coordinator in school systems with more than 4,500 ANB;

(iv) one full-time curriculum coordinator in school systems with more than 1,300 ANB.

(b) Funding for departmentalized middle school, 7th and 8th grade, and high school programs is as follows:

(i) for school systems with 1,301 to 5,000 ANB, 0.60 FTE for department chair positions;

(ii) for school systems with 5,001 to 7,500 ANB, 0.75 FTE for department chair positions;

(iii) for school systems with 7,501 to 10,000 ANB, 1.2 FTE for department chair positions;

(iv) for school systems with 10,001 to 12,500 ANB, 1.35 FTE for department chair positions;

(v) for school systems with 12,501 to 15,000 ANB, 1.8 FTE for department chair positions; and

(vi) for school systems with more than 15,000 ANB, 1.95 FTE for department chair positions.

(c) For independent elementary districts, funding for the central office tier must be calculated based upon the following certified positions, with those positions prorated for smaller and larger school systems:

(i) one quarter-time superintendent in school systems with more than 125 ANB and one full-time superintendent in school systems with more than 500 ANB;

(ii) one quarter-time program or activities coordinator in school systems with more than 1,000 ANB; and

(iii) one full-time curriculum coordinator and 0.15 FTE for department chair positions in school systems with more than 1,300 ANB.

(d) Funding for the central office tier must be calculated based upon the following noncertified positions, with those positions prorated for smaller and larger school systems as follows:

(i) one full-time business manager or clerk for school systems with more than 80 ANB;

(ii) one half-time business clerical position for school systems with 750 to 1,150 ANB, increasing by increments of one quarter-time position for each additional 400 ANB;

(iii) one full-time district secretarial position for each superintendent and each assistant superintendent;

(iv) 0.22 full-time equivalent nurses for school systems with 151 to 400 ANB, increasing by increments of 0.22 FTE for each additional 400 ANB;

(v) one full-time human resource position for school systems with 400 ANB, increasing by increments of one half-time position for each additional 400 ANB up to 4,000 ANB and then by one half-time position for each additional 500 ANB;

(vi) one full-time position for superintendent support and public relations for school systems with 5,000 to 10,000 ANB and two full-time positions for school systems with more than 10,000 ANB;

(vii) one quarter-time position for information technology for:

(A) K-12 districts, high school districts and elementary districts operating under combined boards, or independent high school districts with up to 350 ANB and 0.48 FTE for school systems with 351 to 750 ANB, increasing by increments of 0.48 FTE for each additional 400 ANB; or

(B) independent elementary school districts with 125 to 350 ANB and 0.48 FTE for school systems with 351 to 750 ANB, increasing by increments of 0.48 FTE for each additional 400 ANB;

(ix) athletic directors are excluded for independent elementary districts;

(x) one half-time athletic director for K-12 districts, high school districts and elementary districts operating under combined boards, or independent high school districts with 400 to 799 ANB; and

(xi) one full-time athletic director for school systems with 800 to 8,000 ANB and two full-time athletic directors for school systems with more than 8,000 ANB.

(4) For a school system comprising elementary and high school programs:

(a) multiply the total central office tier dollar amount determined under subsection (2)(d) by the ratio of elementary ANB to the school system ANB, rounded to the nearest whole percentage to determine the elementary portion of the central office tier dollar amount;

(b) multiply the total central office tier dollar amount from subsection (2)(d) by the ratio of high school ANB to the school system ANB, rounded to the nearest whole percentage, to determine the high school district's portion of the central office tier dollar amount.

(5) (a) The school office tier provides funding for school-level costs for schools included in an elementary, high school, or K-12 district. The school office tier is calculated as follows:

(i) determine the ANB of each school of the district using the greater of the current year ANB or the 3-year average ANB for the district determined as provided in 20-9-311. In a K-12 district, the current ANB or the 3-year average ANB of an elementary school must be determined on the same basis as the elementary ANB of the district, and the current year ANB or the 3-year average ANB of a high school must be determined on the same basis as the high school ANB of the district.

(ii) use the school ANB to determine the number of FTE, calculated pursuant to subsection (5)(b), funded for the school office tier including the supervising teacher or principal, assistant principal, librarians, counselors, and school program coordinators;

(iii) for each FTE allocated for funding in subsection (5)(b), multiply the number of FTE by the average

1 salary and benefits provided for that position as provided in subsection (6) to determine the school office tier
2 dollar amount for the school;

3 (iv) add the school office tier dollar amounts for all schools of a district to determine the total school office
4 tier dollar amount of the accredited program component for the school district.

5 (b) The school office tier of the accredited program component must be calculated for each school based
6 on the ANB for the school. Funding for the school office tier must be calculated based upon the following certified
7 positions, with those positions prorated for smaller and larger school systems:

8 (i) a supervising teacher in each elementary school in independent elementary districts with 80 or fewer
9 ANB;

10 (ii) a full-time principal in schools with more than 250 ANB;

11 (iii) a full-time assistant principal in schools with more than 500 ANB;

12 (iv) a full-time librarian in schools with more than 250 ANB;

13 (v) a full-time guidance counselor in schools with more than 350 ANB; and

14 (vi) a full-time school program coordinator in schools with more than 950 ANB.

15 (c) Funding for the school office tier must be calculated based upon the following full-time noncertified
16 positions, with those positions prorated for smaller and larger school systems:

17 (i) one full-time school secretarial staff position for each principal; and

18 (ii) one full-time school attendance and records staff position for schools with 1,000 to 1,800 ANB and
19 two full-time school attendance and records staff positions for schools with more than 1,800 students.

20 (6) The dollar amounts to be applied for each FTE in the accredited program component include average
21 salaries, workers' compensation coverage, health insurance, and professional development for certain funded
22 positions. The salaries in the accredited program component are funded as follows:

23 (a) superintendent and assistant superintendent, \$68,846;

24 (b) district-level program and activities coordinator, \$65,005;

29 (g) nurse, \$39,790;

30 (h) human resources staff, \$48,565;

- (i) information technology staff, \$37,694;
- (j) central services staff, \$24,310;
- (k) athletics director, \$36,508;

- (c) professional development for each funded position as follows:

(i) \$800 each year for the superintendent, assistant superintendent, district-level program and activities coordinator, curriculum coordinator, supervising teacher, principal, assistant principal, librarian, counselor, and school program coordinator; and

(ii) \$500 each year for the business manager, business clerical staff, district secretarial staff, nurse, human resources staff, information technology staff, central services staff, athletics director, school secretarial staff, and school attendance and records staff.

(8) The per-student tier of the accredited program component provides funding for purchased services, administrative supplies, and other expenditures associated with business services, administration, support services for students and instructional staff, and general fund food services and must be allocated to each school district by multiplying the ANB, as calculated in 20-9-311, for the elementary or high school district or program of a K-12 district by the per-student amounts as follows:

- (a) E6, \$446;
- (b) E5, \$364;

20
21 **NEW SECTION. Section 4. Risk category index -- calculation of at-risk adjustments to the**
22 **per-student component.** (1) (a) An at-risk adjustment to the per-student component must be computed for each
23 district as provided in this section. The indexed value for the adjustment is derived from the following risk
24 categories:

25 (i) the percentage of students in the school district who are American Indian;

26 (ii) the percentage of students who are eligible for free or reduced-price lunches in the school district;

27 (iii) the percentage of migrant students in the school district;

28 (iv) the percentage of students who are identified as students with limited English proficiency in the school
29 district;

30 (v) the educational attainment of women within the boundaries of the school district; and

(vi) the per capita income within the boundaries of the school district.

(b) (i) The percentages in subsections (1)(a)(i) through (1)(a)(iv) must be calculated for each fiscal year by the office of public instruction based on the count of regularly enrolled students as provided in 20-9-311 for the previous school year.

(ii) The information in subsections (1)(a)(v) and (1)(a)(vi) must be calculated by the office of public instruction based upon the most recent data from the national center for educational statistics and must be updated as new data becomes available from the decennial census.

(2) By March 1 of each year, the office of public instruction shall compute a risk category index for each school district by:

(a) subtracting the district's computed value for each risk category enumerated in subsections (1)(a)(i) through (1)(a)(iv) from one and dividing the result by the difference of the statewide average value for that risk category from one; and

(b) dividing each district's average value for each risk category provided in subsections (1)(a)(v) and (1)(a)(vi) by the statewide average for that risk category.

(c) The office of public instruction shall calculate the sum of the values across risk categories for the district and divide the sum by the total number of risk categories. The office of public instruction shall subtract one from the result and convert the difference to a percent difference from the statewide average.

(3) (a) For districts where the difference calculated in subsection (2)(c) is positive, a 10% premium must be added to the district's per-student component.

(b) For districts where the difference calculated in subsection (2)(c) is negative, a premium equal to the percent difference in subsection (2)(c), plus 10%, must be added to the district's per-student component.

NEW SECTION. Section 5. School district funds. The superintendent of public instruction has general supervisory authority over the provisions of this section and the fund structure used by school districts. For the purpose of limiting the number and type of school district funds to those necessary for maximum budgetary flexibility while still ensuring accountability and efficiency, school districts shall use the following funds, fund types, and fund categories:

3 **Section 13.** Section 20-4-203, MCA, is amended to read:

4 **"20-4-203. Teacher tenure.** (1) Except as provided in 20-4-208, whenever a teacher has been elected
5 by the offer and acceptance of a contract for the fourth consecutive year of employment by a district in a position
6 requiring teacher certification except as a district superintendent or specialist, the teacher is considered to be
7 reelected from year to year as a tenured teacher at the same salary and in the same or a comparable position
8 of employment as that provided by the last-executed contract with the teacher unless the trustees resolve by
9 majority vote of their membership to terminate the services of the teacher in accordance with the provisions of

11 (2) The tenure of a teacher with a district may not be impaired upon termination of services of the teacher

22 duties, by the total number of contracted days under the last-executed contract.

23 (b) The definition of same salary may be modified if negotiated and agreed to in a collective bargaining

2 of 20-5-320 or 20-5-321, the rate of tuition charged for a Montana resident student may not exceed ~~20% of the~~
3 ~~per-ANB maximum rate established in 20-9-306~~ amount of any over-quality BASE budget adopted for the year
4 of attendance.

5 (2) The tuition for a child with a disability must be determined under rules adopted by the superintendent
6 of public instruction for the calculation of tuition for special education pupils.

7 (3) The tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) for a student

11 approve an agreement with the district of attendance for the tuition cost;

12 (b) for a Montana resident student, ~~80% of the maximum per-ANB rate established in 20-9-306~~ amount

14 from the per-student program costs for a Montana resident student; and

15 (c) the maximum tuition rate paid to a district under this section may not exceed \$2,500 per ANB.

16 (4) When a child attends a public school of another state or province, the amount of daily tuition may not
17 be greater than the average annual cost for each student in the child's district of residence. This calculation for
18 tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the
19 preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal
20 year. For the purposes of this subsection, the following do not apply:

21 (a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

25 (5) When a child is placed by a state agency in an out-of-state residential facility, the state agency
26 making the placement is responsible for the education costs resulting from the placement.

27 (6) The amount, if any, charged for transportation may not exceed the lesser of the average
28 transportation cost for each student in the child's district of residence or 35 cents a mile. The average
29 expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing

18 county superintendent to order an election to allow the electors of the elementary district to consider the
19 proposition to create a high school district solely for the purpose of expanding the elementary school district into
20 a K-12 district. Approval of the proposition results in a tax levy for payments as provided in subsection (6)(b).

21 (3) If the proposition for the expansion and the transition levy provided for in 20-9-502(6) is approved
22 by the electors of the elementary district and the trustees issue a certificate of election as provided in 20-20-416,

(5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the increase of the ~~average number belonging ANB~~ used to establish the ~~basic entitlement and total per-ANB entitlement~~ quality BASE budget for the ensuing ANB calculation period is determined using the difference between the enrollment for the ensuing school fiscal year and 106% of the enrollment used to calculate the budgeted ANB. The amount determined is the maximum allowable increase added to the ~~average number belonging ANB~~ for the purpose of establishing the ensuing year's ~~basic entitlement and total per-ANB entitlement~~ quality BASE budget.

(6) (a) Any ~~entitlement~~ quality BASE budget increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year.

(b) If the actual enrollment is less than the enrollment used to determine the ~~budgeted ANB for the quality~~
~~BASE budget~~, the superintendent of public instruction shall revise ~~the total per-ANB entitlement and basic~~
~~entitlement~~ quality BASE budget calculations, as provided in subsection (5), using the actual enrollment in place

resulting ratio to the power of one-third; and

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar
year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and
raise the resulting ratio to the power of one-third.

(2) The present law base for the ~~basic and per-ANB entitlements~~ quality BASE funding components,
calculated under Title 17, chapter 7, part 1, must consist of any enrollment increases or decreases plus the
inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the

4 **Section 59.** Section 20-9-439, MCA, is amended to read:

5 **"20-9-439. Computation of net levy requirement for general obligation bonds -- procedure when**
6 **levy inadequate.** Subject to 20-6-326, the following provisions apply:

7 (1) The county superintendent shall compute the levy requirement for each school district's general
8 obligation debt service fund on the basis of the following procedure:

9 (a) Determine the total money available in the debt service fund for the reduction of the property tax on
10 the district by totaling:

11 (i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as
12 provided in 20-9-438;

13 (ii) anticipated interest to be earned by the investment of debt service cash in accordance with the
14 provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

15 (iii) any state advance for ~~school facilities~~ debt service distributed to a qualified district under the
16 provisions of 20-9-346, 20-9-370, and 20-9-371;

17 (iv) funds transferred from the impact aid fund established pursuant to 20-9-514 that are authorized by
18 20-9-437(2) to be used to repay the district's bonds; and

19 (v) any other money, including money from federal sources, anticipated by the trustees to be available
20 in the debt service fund during the ensuing school fiscal year from sources such as legally authorized money
21 transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

22 (b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from
23 the final budget for the debt service fund as established in 20-9-438.

24 (2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the
25 county commissioners on the fourth Monday of August by the county superintendent as the net debt service fund
26 levy requirement for the district, and a levy must be made by the county commissioners in accordance with
27 20-9-142.

29 series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal
30 becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this

1 section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court
2 of the county in which the school district is located for a writ of mandate to compel the board of county
3 commissioners of the county to make a sufficient levy for payment purposes. If, upon the hearing of the
4 application, it appears to the satisfaction of the court that the board of county commissioners of the county has
5 failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as
6 established in the manner provided in this section, the court shall determine the amount of the deficiency and
7 shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting
8 for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the
9 school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required
10 to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the
11 petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be
12 a charge against the school district or the county."

14 **Section 60.** Section 20-9-501, MCA, is amended to read:

30 provided to the employee, are paid from state or local funding sources;

(ii) a cooperative employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the cooperative's interlocal cooperative fund if the fund is supported solely from districts' general funds and state special education allowable cost payments, pursuant to 20-9-321, or are paid from the ~~miscellaneous~~ state and private programs fund, provided for in 20-9-507, from money received from the medicaid program, pursuant to 53-6-101;

(vi) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid.

(b) notwithstanding the provisions of subsection (9), subtracting the money available for reduction of the levy requirement, as determined in subsection (4)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(5) The county superintendent shall:

(a) total the net retirement fund levy requirements separately for all elementary school districts, all high school districts, all K-12 districts, and all community college districts of the county, including any prorated joint district or special education cooperative agreement levy requirements; and

(b) report each levy requirement to the county commissioners on the fourth Monday of August as the respective county levy requirements for elementary district, high school district, K-12 district, and community college district retirement funds.

(6) The county commissioners shall fix and set the county levy or district levy in accordance with 20-9-142.

(7) The net retirement fund levy requirement for a joint elementary district, ~~or a joint high school district,~~ or a joint K-12 district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

(8) The net retirement fund levy requirement for districts that are members of special education cooperative agreements must be prorated to each county in which the district is located in the same proportion as the special education cooperative budget is prorated to the member school districts. Section 61. Section 20-9-505, MCA, is amended to read:

"20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the ~~miscellaneous state~~ and private programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

The money may be a reimbursement of ~~miscellaneous program~~ federal programs or state and private programs fund expenditures already realized by the district, indirect cost recoveries, the transfer of a fund balance from a tuition fund closed under 20-9-201, or a grant of money for the financing of expenditures to be realized by the district for a special, approved program to be operated by the district. When the money is a reimbursement, the transfer of a tuition fund balance, or a local government severance tax payment, the money may be expended at the discretion of the trustees for school purposes. When the money is a grant, the money must be expended according to the conditions of the program approval by the superintendent of public instruction or any other approval agent. Within the ~~miscellaneous programs fund~~ federal programs and state and private programs funds, the trustees shall maintain a separate accounting for each local, state, or federal grant project, funds transferred from a closed tuition fund, and the indirect cost recoveries.

2 **Section 64.** Section 20-9-622, MCA, is amended to read:

3 **"20-9-622. Guarantee account.** (1) There is a guarantee account in the state special revenue fund. The
4 guarantee account is intended to:

5 (a) stabilize the long-term growth of the permanent fund; and

8 (2) ~~and (3)~~, the guarantee account is statutorily appropriated, as provided in 17-7-502, for distribution to school

24 designated as the prime agency may be transferred to the interlocal cooperative fund from any fund maintained
25 by ~~such~~ the district by resolution of the trustees. Any ~~such~~ transfer to the interlocal cooperative fund ~~shall~~ must
26 be used to finance those expenditures under the agreement ~~which~~ that are comparable to those that are
27 permitted by law to be made out of the fund from which the transfer was made and which are within the final

6 **"20-10-144. Computation of revenue and net tax levy requirements for district transportation fund**
7 **budget.** Before the second Monday of August, the county superintendent shall compute the revenue available
8 to finance the transportation fund budget of each district. The county superintendent shall compute the revenue
9 for each district on the following basis:

10 (1) The "schedule amount" of the budget expenditures that is derived from the rate schedules in
11 20-10-141 and 20-10-142 must be determined by adding the following amounts:

12 (a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained
13 by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate for each bus mile
14 by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by
15 the county transportation committee and maintained by the district); plus

16 (b) the total of all individual transportation per diem reimbursement rates for the district as determined
17 from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the
18 ensuing school attendance year; plus

19 (c) any estimated costs for supervised home study or supervised correspondence study for the ensuing
20 school fiscal year; plus

21 (d) the amount budgeted in the budget for the contingency amount permitted in 20-10-143, except if the
22 amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or \$100, whichever is larger, the
23 contingency amount on the budget must be reduced to the limitation amount and used in this determination of
24 the schedule amount; plus

25 (e) any estimated costs for transporting a child out of district when the child has mandatory approval to
26 attend school in a district outside the district of residence.

27 (2) (a) The schedule amount determined in subsection (1) or the total transportation fund budget,
28 whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be
29 budgeted on the following basis:

30 (i) one-half is the budgeted state transportation reimbursement; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of fund balance for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and fund balance reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of 20 U.S.C. 7701, et seq., or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

~~(i)~~(h) school district block grants distributed under 20-9-630;

~~(j)~~(i) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year that may be used to finance the transportation fund; and

~~(k)~~(j) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal

1 year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may
2 not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the
3 purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

4 (4) The district levy requirement for each district's transportation fund must be computed by:

5 (a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation
6 budget amount; and

7 (b) subtracting the amount of money available to reduce the property tax on the district, as determined
8 in subsection (3), from the amount determined in subsection (4)(a).

9 (5) The transportation fund levy requirements determined in subsection (4) for each district must be
10 reported to the county commissioners on the fourth Monday of August by the county superintendent as the
11 transportation fund levy requirements for the district, and the levy must be made by the county commissioners
12 in accordance with 20-9-142."

23 90-6-307 identifies a jurisdictional revenue disparity, the board shall promptly notify the developer, all affected
24 local government units, and the department of revenue of the disparity. Except as provided in 90-6-404 and this
